Vehicle Miles Traveled (VMT), VDOT Statistical Report

Virginia collects Motor Fuel Sales tax revenues from the distributor, as such it is not possible to accurately track motor fuels sales tax revenues by locality. Because approximately 52% of Commonwealth Transportation Funds come from state and federal motor fuel taxes, it is necessary to construct a proxy measure of local motor fuels consumption. Both total local populations and local VMT serve as adequate measures, however this analysis uses the **average** of the two measure to account for population density, congestion and transit use.

Notes:

Maintenance Expenditure includes payments to localities.

Construction Expenditure includes local CMAQ allocations.

Transit Expenditure includes only State and Federal funding sources (local match and fare box EXCLUDED).

Percent of Total Expenditure DOES NOT include statewide project allocations of \$1.2 billion.

Statewide project allocations include \$623 million in federal GRAVEE bond proceeds expected to be sold in fiscal year 12. Additionally, the program includes \$45 million in debt service on the GARVEE bonds. Other spending initiatives in the statewide category include the \$25 million for accelerating planning and scoping of projects that are not yet in the preliminary engineering phase as well as the PE work for the Rte 460 project.
