

Footnote: In 2015 VDOE working with Attendance Works jointly created a 12-module training series titled *Attendance and Truancy Among Virginia Students*.

That reference was taken down from the VDOE website yesterday, likely to await the results of the Task Force. The links in *Attendance and School Engagement* to its online training modules are thus broken since then. So I removed them from the draft of this article.

Attendance and Truancy Among Virginia Students featured an extensive catalog of attendance improvement interventions adopted in Virginia schools in 2016 and was until today the Commonwealth standard.

Some modules of *Attendance and Truancy Among Virginia Students* are still available, at least at this writing, in .pdf form on the web by searching "Attendance+and+Truancy+Among+Virginia+Students".
